I remember that feeling, wanting to make each choice the best when planning the wedding day of your dreams. It is our hope to make one of those decisions easy for you. We hope we can give you peace and joy in your choice of photographers.

Your wedding photography is one of the most valuable investments you will make in your day. Your photos are what will capture every other detail you are pouring your heart and soul into right now. More than that, your photos are what will capture your love story for generations to come, and all of those love stories that have made you and your fiancé the people you are. We count it an honor to photograph those stories. As a husband and wife, we are invested in our work because we too believe in the beauty of marriage, the wonder of love, and the power of photography to tell a brave & beautiful story - your story.

## BIRDS OF A FEATHER PHOTOGRAPHY

*“We started this company because we believe in the glory of a good love story and the power of a photograph to preserve the moments that make up that story.”*

Hi! We are John & Tassia, owners of Birds Of A Feather Photography. We started this company together 10 years ago because we believe in the glory of a good love story and in the power of a photograph to preserve the wonder of the moments that make that story. We met each other when we were just teens. John bought me my first camera when I was only 16 years old, and both he and photography have been the loves of my heart ever since. We spent years traveling the world together taking photos before coming home to the Lehigh Valley to start our family. Our business started shortly after the birth of our first son, as our love for him overflowed into our photos. Our business grew in the most organic way, as it was fueled by love pouring out

into photos and invitations to capture that love in the lives of others. Our photography has won many awards, and has been nationally published multiple times; but where we measure our greatest success is in the hundreds of heart felt reviews and thank you notes from our clients. We are told that there is a depth and joy to our photos that goes well beyond composition and good lighting. I attribute this to a matter of perspective. We have a love for people and a belief that this short time we have with the ones we love is truly a gift worth celebrating! Your wedding day is the perfect place to capture all of that in photos. We bring inspired vision, award winning talent, and a heart to serve... and the rest is history. Rich, beautiful photographic history of the epic story of your love & life.

*I can honestly say getting Birds of a Feather Photography for our wedding was the best investment imaginable.*

*As visual artists, my husband and I were looking for creative, fun, and insightful people to be our photographers. This team definitely fit the bill. Not only are they experts at composition and lighting, but they are the sweetest people on earth! Every photo is a work of art. I feel like the luckiest bride in the world to have such amazing memories captured in the most beautiful way possible. Thank you so much for making our wedding exactly what we could have wanted and more.*

## “ THEY BRING SUCH A SENSE OF CALM ”

One thing we hear repeated from our couples is that we bring a calming presence to every hour of the wedding day. You don't plan a wedding everyday, but with us you get a well of wisdom from experience of shooting hundreds of weddings. From timeline planning to navigating the unexpected, we aim to help act as a buffer between you and stress. This leads to capturing the authentic joy our photos are known for.

### SIMPLICITY

We live in such a busy era that we have streamlined the booking and payment process for you into one simple online packet. We work with so many out of state couples that we have found this system to offer a sense of ease in this stage of wedding prep.

Payments are broken down into 3 installments and automatic reminders are sent to help you keep track of the many vendor timelines you are juggling.

If you are local and have time, we would love to still meet up for coffee as well!

### CASTING & CAPTURING VISION

We are professionally and personally known for having imaginations that never cease. It is an honor to have a career where this trait can be used as such an asset in creating unique photographs to highlight the beauty of your life. We count our wedding photography as a mix of art and an act of service. While we bring plenty of our own vision to your wedding day, we are also eager to pick up on your own. It is our goal to illustrate your story the way you are dreaming of, and this means getting to know you and your hopes for the day.

This begins the second we save your date together as we offer questionnaires that help us begin to get to know you and the things you hold dear. It is our desire to collaborate with you to bring your dreams to life.

### TRUST

In life and business we hold trust as one of the most valuable assets in a relationship. We have hundreds of reviews to our name, but more than that we like to use your engagement session as a time to build trust between us personally. We are told that we put people at ease in front of the camera. I believe this comes from earned trust in the way we see you and want to capture your relationship together.

### PLANNING

You don't plan a wedding every day, but in a sense we do. Knowing the right questions to ask & being available to answer all of yours, allows us to collectively orchestrate a well designed timeline for your wedding. We bring experience from hundreds of weddings to the table in helping you plan your own. This allows us to offer guidance in planning and more importantly steer things with grace if they stray from the plan. In this matter we use our experience and calm nature to help act as a unique buffer between you and points of potential stress. We believe this all leads to capturing the authentic joy that our photos are known for.

### WORK ETHIC & AUTHENTICITY

Another thing we here often from our couples is the way that their guests comment on how hard we work while blending in so well. We do work hard to keep your day flowing smoothly and to capture every moment unobtrusively.

We have all been to weddings where the photographer treats the day as their own personal photo shoot, taking time away from the bride and groom and not allowing them to be present with their people. That is not how we work. Life itself is really beautiful. We approach your wedding day from that perspective, wanting to capture your authentic story in all it's beauty. We use our experience to anticipate and prepare for your moments as they unfold, allowing you to enjoy your day fully while we capture your moments artistically.

### WELL BALANCED & TIMELESS

Our style certainly leans toward capturing candid moments but it also reflects deep creativity and a respect for classical portraiture as well. Trends are fun to follow, but love is timeless, and that is what our photography intentionally reflects. From in camera capture to our editing process we aim to deliver well rounded photo collections with a timeless beauty that will grow in value as time unfolds.

### ENGAGEMENT SESSION

Why would we include a session valued at \$500 in our wedding collections for free? In short, because we care, about the process & our people. Our goal is to capture your authentic love story, and that requires getting to know you and building trust. Not only will your engagement session lead to amazing photos but it also provides an experience for us to get to

know each other in the context of the camera. It is a time for me to learn how the two of you relate and how to best help direct you into artfully designed but carefree poses. Our hope is that you go into your wedding day trusting us fully as both talented professionals who understand you and have your back. The engagement session helps with all of this.

Your engagement session can be as unique as your love story. That may mean enjoying the simple things together... a walk through your favorite park or a trip to the coffee spot where it all began. Sometimes that means a new adventure, a hike to a mountain or a dip in the water at the base of a waterfall. We are up for (almost) anything. Be it simple or ambitious, we see the momentous beauty in it all! We hope to capture this unique season of your love story for you!

*"If I am honest, I was dreading engagement photos and really only did it 'for her'; but our engagement session was surprisingly fun. I'd do it again tomorrow- now I'm excited for wedding photos."*

- Matt (Groom 2019)

*"Neither my fiancé or I have ever really felt comfortable in front of the camera. I was unsure about an engagement session but I am so glad we did it! Tassia knew how to direct us & still let us be us (but made us look amazing in the process).*

*I can't believe the photos she captured." - Sarah*
